

HOW CAN YOU HELP TROY STAY IN THE LEAD OF CALIFORNIA SCHOOLS?

April 4, 2006

Dear Troy Parent;

Troy High School is one of California's outstanding high schools. Ranked Number 21 in the Nation by Newsweek, we are one of the highest ranking schools in Orange County in the California exit exam and AP test scores. Technology is one way Troy stays in the lead. By integrating technology throughout the school our children are challenged to explore beyond tests and textbooks, to take learning a step further and in the process become even better students.

Technology is constantly evolving and we are excited about the new and expanding possibilities that this gives to our students. Troy faculty and staff are working to enhance the curriculum by creating a media production class as well as further integrating technology into all types of student activities including English, History and yes even Math! But the limits of our current equipment are holding us back. If we are to continue to move forward we need more powerful computers in our computer labs to give our students the tools and resources they need to excel. This modernization would also give us the opportunity to move the current computers from our labs into the library to provide greater access for research, allowing entire classes to use the library systems at one time. *This is truly a win for all Troy students.*

Maintaining the best possible schools for our children requires our combined financial support. This expansion and modernization project is a major undertaking with the first phase requiring approximately \$20,000. We are asking you, as Troy parents, to help us reach that goal by donating to the Computer Lab Project. In addition to asking for support from parents we have also submitted several grant requests and are looking for potential corporate sponsors.

Please take this opportunity to make a difference in your child's education and keep Troy High School at the forefront of California Schools. [Make your tax-deductible donation today!](#)

Sincerely Yours;

Stacey Manzer, President
The Troy Support Organization
